

The image shows the Visual Studio Code (VS Code) interface with the 'Commit' dialog box open. The dialog has a dark theme. At the top, it says 'Commit' and 'pyenv.cfg'. Below that, there's a 'Changes' section with a list of files. The first file is 'pyenv.cfg' with the following content: 

```
home = /usr/local/bin
implementation = CPython
version_info = 3.12.5.final.0
virtualenv = 20.24.5
include-system-site-packages = false
base-prefix = /Library/Frameworks/Python.framework/Versions/3.12
base-exec-prefix = /Library/Frameworks/Python.framework/Versions/3.12
base-executable = /usr/local/bin/python3.12
```

 Below the list, there's a 'Commit' button (highlighted in blue) and a 'Commit and Push...' button. The background shows the 'Hello World!' file in the editor, which contains the text 'Hello World!'. The bottom status bar shows 'Hello World' and 'pyenv.cfg'.
